I wish to comment on the Proposed Final Judgment. I believe that, as written, it will not solve the problems it is intended to solve. The two largest issues are these:

- * The PFJ Fails to Prohibit Anticompetitive License Terms currently used by Microsoft.
- * The PFJ Fails to Prohibit Intentional Incompatibilities Historically Used by Microsoft.

Please do not allow this settlement to proceed with these problems; I believe they will materially impact the security of the US computer networks.

Sincerely,
Brian Sniffen, Citizen of the United States
61 Medford St.
Medford, MA 02155
